

I am writing on behalf of the radio station KLOVE, I listen on 106.7 out of Danville, VA. I am abundantly served by this radio station as is my family and friends. It brings positive encouragement to a world that is so negative. It provides uplifting commentators and music that inspires your day to be better. I DO NOT want this radio station lost or replaced by LPFM. It would completely change the way my days are affected. I urge you to consider this. I support this radio station financially and would be devastated to lose this important link to the LORD above. Please prayerfully consider what you would be taking away from many christian families that just want their kids to hear and know love. Thanks very much. God bless you
